

Objectives and investment policy

Objectives

The target of investment activities is to achieve long-term value increase on the invested assets through active asset management pursuant to the Act on Common Funds and the fund's regulations.

Investment policy

The assets are invested in publicly traded equities and equity-linked securities of companies listed in Japan. The objective is, through equity selection, to achieve a return that outperforms the average return on the Japanese equity market. The fund is categorised as article 8 under SFDR and promotes environmental and/or social characteristics, as well as good governance practices, through screening, exclusions, investment analysis and decision-making as well as active ownership. The fund follows Danske Invest's responsible investment policy. The returns, such as dividends and interest, will be reinvested. The fund's base currency is the euro.

It is generally expected that the fund's holdings, and therefore its performance, may differ significantly from those of the benchmark. The fund suits investors who seek high returns and asset value increases, while tolerating substantial value fluctuations or even decreases. The fund is suitable as part of a diversified investment portfolio. Investors may subscribe for and redeem fund units on every banking day.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Return in the period: 30.04.2020 - 30.04.2025

The default for the chart is the return for the past 5 years as of end of month or, if the fund is less than 5 years old, since launch. Past performance is not a reliable indicator of future results. Future returns may be negative. The return may increase and decrease as a result of currency fluctuations if the fund is issued in a currency other than the currency used in the country in which you are domiciled.
