

Objectives and investment policy**Objectives**

The objective of this alternative investment fund is to generate long term returns by investing in alternative investment assets. Dividends are normally distributed to investors each year.

Investment policy

The fund invests directly or indirectly in a diversified portfolio of alternative investment assets such as infrastructure, alternative credit investments, private equity, forest and farmland, real estate, as well as in some liquid assets. Investments will mainly be private type investments located within OECD countries. Investments aim at sectors with fixed income streams. The fund may use derivatives for hedging and efficient portfolio management, as well as for investment purposes. Usually the expected level of leverage is 265%. The fund is categorized under SFDR as article 8 and promotes environmental and/or social characteristics, as well as good governance practices, through screening, restrictions, investment analysis and decision-making as well as active ownership. The fund follows Danske Invest's responsible investment policy. Recommendation: The fund may not be appropriate for investors who plan to redeem their money within 7 years.
